But THE MENACE has already proven itself efficient and powerful to defeat the worst enemies of the republie; and, by fore-warning and awaker the people to the approach of the hostile and armed for, defeat him by peaceful means, and so prevent a resort to arms and fratricidal conflict.

For such a time as this, when history is repenting itself, THE MENACE, a na-tional and international paper with a powerful circulation, is in the field to sound the needed warning and turn the search light of truth into the dark and secret places of Rome, that the people may forestall and defeat the papal plan to capture America, and place the nation under the control of popery.

Romanism and Americanism are irre concilable forces. This is a nation and a government of, by and for the people. The kingdom of Rome, ruled by the pope, is despotic and monarchial. It torments Europe and is the poison in the veins of the nations.

What will you do with THE MENACE in such a crisis as this? Looking for armies and pavies, for military readiness against a foreign foe, will the people negect the instrument at hand, shaped b the providence of God and already in the field, wise to the strategy of Rome, the worlds international foe, which is already at our door, and demanding the control of the government? Will the people cry peace! peace! and let ruin overtake ns allowing THE MENACE to die for lack of support!

I cannot believe it. It must not be Our folly and ignorance was great in the 60's. It will be no less a crime for us to neglect our opportunity to save the nation by preventive means. Let us not, like Europe, destroy ourselves and civilination; and, Sampson like, pull down the

General Nelson A. Miles, Admiral G. W. Baird of Washington, D. It certainly will be a great pleasure and privilege to meet and hear all of these splendid American celebrities but we know several other good reasons why none of our live, patriotic citizens can well afford to miss this great occasion. Action will be taken on some matters of very vital importance and national concern. I apprehend the political history of this country will read just a little different than it otherwise would .- D. STOP! LISTEN! LOOK!

BY PRANK MEED,

FTER reading over the editorial on page four of THE MENACE of July 31st, one is inclined to the belief that some unpatriotic pa-triot is "knocking" THE MEN-ACE somewhere along the line, in view of the fact that for a number of weeks there has been a steady loss in subscriptions. This does not look good to the real lovers of liberty, who have watched the growth and power of THE MENACE from its birth.

No real lover of liberty has any other ax to grind than the one that is to sever Rome's political head. This being true, it follows naturally that he will we any paper and any organization that will help in any effective way to amputate Rome's political head.

If a man is differently inclined, then he is not a true lover of liberty, or if he does love liberty, he is blinded by a certain amount of personal ambition; and for this reason is unfitted for leadership in a cause like this.

Doubtless many feel "sore" because some of their letters were not published have more than once been a little dis appointed at not seeing some of my "dope" appear in the pages of THE MENACE; but each time this thought would come to me: "The editor of THE MENACE is on the ground; he knows for better what is best for the pages of Tirk MENACE than I do, and as long as THE MENACE makes Rome howl, it is none or my business who steers the ship or who The case is the same as though we were

all on a long sea voyage, the one anonly aim being to arrive at our journey end in the quickest time possible." The man who can come the closest to keeping this vesnel on its true course, and the man who can shovel in the most coal the shortest time, are the men to place these positions. But after we arrive at the end of our voyage and desire to put back the hopes of the world for a a smooth later on a pleasure trip across about steering the vessel and keeping up steam, for now our purpose is quite ferent from what it was when voyaging across a stormy sea to distant port.

The reason THE MENACE should no paper I read a very forceful, truthful be the "organ" of any party or order, statement concerning the reports that are is as plain as the fight it is waging undertakes to be the mouthpiece of any one organization working to accomplish you express your contempt for the same end a number of other organthat will end in shipwreck. No paper car-

will not give offense to one or more of the other organizations, if it becomes the or gan of any of them. The same result will happen if it becomes the organ oall such organizations.

THE MENACE has proved its worth by did results, and since it has done so in the past it should be allowed to con time on its course. How is it to do this By a few of us sore heads drawing out and turning our support to other papers By no means, for the size of emission are less black than the sins of commission As long as THE METACE gets results, is our duty as patriotic Americans to keep on supporting it, leaving the editor

free to keep on guiding it.
How shortnighted it would be for the sengers on a ship bound to a distant harbor and country, to take charge of the ship and run it to suit themselves, when it was known that the captain had been guiding the ship on a straight course and safely through all storms. Nothing can managed except through one head. Two laws governing the same thing will defeat each other. It is the business of the subscribers to see that the ship is kept on its course; but it is not wisdom for them to take over the management mless it be seen to have departed from its course.

MENACE CAN show results, and this is a refutation of any and all false charges No paper can be the organ of any or all the Patriotic orders, and be successful The only sensible thing to do is to sup port those papers that do good work, and keep on doing this as long as they do good work. But do not tie the editor's hands by party ownership. If you do, then "good bye John."

If the members of the different patri otic orders were wide anake as to the best and most effective methods of fighting Rome, it would do the Knights of Columbus little good to get into such orders, for any nullifying schemes they might propose would be seen through at once, even though they might pass for good patriotic Americans and in favor of full liberty. In silch cases the proposers would be regarded as a little weak in the "upper story," and their propositions laughed at. But selfish ambition, coupled with lack of understanding, is liable to foment trouble in any real liberty loving order, that is headed in the right direction. The effort will be made to turn it from its course.

Let us help support all the papers that by THE MENACE at the same time San Francisco, Cal., Aug. 15, 1915.
